

Persistence in Engineering, Durability in Performance

Cast Iron Motor Series (PER-IND)

Industrial Duty. VSD-Ready. Built for Long Life

Engineered For Demanding Industrial Applications With Reliable Inverter Operation And Long Service Life.

Core Features

- High Efficiency
- IP56 as standard
- 36-Month Warranty
- Insulated Bearing to Mitigate Circulating Currents
- Shaft Grounding For Additional VSD and Bearing Protection
- Single Thermistor (PTC) Fitted as Standard From Frame 132 and Above
- Dual Thermistors (PTC) With Dedicated Auxiliary Terminal Box On Frames 280 and Above

Range Overview

• Up to 335 kW / IEC Frame 80-355

• 2 / 4 / 6 / 8 pole
